ENGLAND TO GET A NOTE NEXT WEEK

Protesting Against Further Interference With Commerce of United States

DESIRED TO DISPOSE OF LAST NOTE TO GERMANY

BEFORE SENDING BRITISH

Official Text of Note Received in Berlin Today and German Ambassador to United States, Von Bernstorff, Went to State Department for His Copy — Orduna Case.

(ASSOCIATED PRESS TELEGRAM)

Berlin, July 23.—Via London. — The new American note to Germany reached here during the night and was delivered to the foreign office by Ambassador Gerard at 1:12 o'clock this afternoon.

Washington, July 23.—With the delivery today by Ambassador Gerard to the foreign office in Berlin, of the new American note, warning Germany that the loss of American lives through further violations of neutral rights, would be regarded as "unfriendly," the United States rests its case for the present at least. The note will be given out here late today for publication tomorrow morning.

Officials of the Washington government turned expectantly toward Berlin for some indication from official quarters there as to the communication. Until such information is at hand, the next diplomatic move of the United States will not be decided upon.

The note is declared to be the final word of the United States government with regard to further transgressions of its rights. Should a similar disaster as that to the Lusitania occur, it is thought President Wilson would call congress together to consider a course of action.

If the note meets with a friendly reception, and there appears no intention on the part of the German government further to violate neutral rights on the high seas, the President shortly will take up the situation that has arisen with Great Britain over interference with American commerce by the allies. A note virtually is ready now to be dispatched to Great Britain again protesting against deviations from international law in the operations of the Order in Council against commerce with Germany.

The new American note to Great Britain, protesting further against interference with commerce between the United States and neutral nations was almost finished today at a conference between President Wilson and Secretary Lansing. It will be sent forward to London probably next week. Secretary Lansing will finish the (Continued on Page 2, Col. 5.)

BRITISH VESSEL SUNK BY MINE IN SUEZ CANAL

(ASSOCIATED PRESS TELEGRAM)

Berlin, July 23.—(By wireless to Sayville.) A dispatch from The Hague to the Overseas News Agency says that according to reports from Cairo, the British steamship Theresa, while passing through the Suez canal ran upon a Turkish mine and sank.

Available shipping records contain several vessels of the name of Theresa, but none of them give the nationality.

SINKING OF ANOTHER VESSEL JUNE 30 MAY BE ONE MEANT.

(ASSOCIATED PRESS TELEGRAM)

Boston, July 23.—The sinking of the British steamship Theresa, in the Suez canal late in June, was described today by Captain Wilson, of the British steamer Rufford Hall, which is here with a cargo from the Far East. The Theresa, a new vessel of the Blue Funnel line, running between England and China, struck a Turkish mine, according to Captain Wilson. It is believed here that she is the vessel described in Berlin dispatch as the Theresa.

Captain Wilson said that he reached Suez on June 30 and there learned of the sinking of the Theresa a few days previously. The explosion tore the side out of the steamer and she went to the bottom almost immediately. The Rufford Hall was delayed 36 hours while wreckers removed the sunken vessel from the center of the canal.

Strikers Threaten Big Bridgeport Arms Plant

Scene Outside Remington Arms Company in Bridgeport, Conn.

This photograph was taken the day the leaders of the labor troubles declared the strike against the Remington and other companies at Bridgeport Conn., manufacturing arms for the European war. It shows a small crowd of strikers outside the Remington Company's plant. The company is putting up an immense plant which will spread over 102 acres. All

kinds of shops and buildings are in course of construction. Some men who would hurry these buildings along so they could be used in the manufacture of arms for the allies in the war have gone out. Samuel Gompers has charged that German influence has had something to do with this. He said that officials of the Federation of Labor had been approached in this way.

Red Cross Abandons Efforts To Relieve Starving Mexico, Account Chaotic Conditions

(ASSOCIATED PRESS TELEGRAM)

Washington, July 23.—The Mexican situation again came to the front today with a conference between President Wilson and officials of the American Red Cross, who have virtually abandoned their campaign for the relief of noncombatants in the southern republic, because of the chaotic conditions there. The dispatch, too, of the German note caused officials to turn their attention to Mexican affairs, although no decisive move in that direction is contemplated at present.

The president's callers included Brigadier General C. A. Devol, general manager of the Red Cross, who directed relief work in Mexico; Ernest Bicknell, national director, and Miss Mabel Boardman, a member of the Central Committee. General Devol was to report on the situation and his failure to get the various leaders to facilitate the work of feeding the starving civilian population. He was to tell the president that conditions are even worse than when he called upon the leaders to settle their difficulties.

Officials and diplomats were surprised over the reported action of General Carranza in serving notice that he would not receive communications or transact business with foreign governments which have no diplomatic agents accredited to his government at Vera Cruz. It had been generally understood that foreign governments were awaiting action by the United States before

recognizing any government in Mexico.

The effect of such action would be to cut off the Carranza government from further communication with foreign nations having ministers resident in Mexico City, although it would not, it is believed, sever his informal relations with the United States as he is said to regard Consul Silliman at Vera Cruz as a properly accredited agent.

President Wilson today urged officials of the American Red Cross not to discontinue their efforts to relieve famine sufferers of Mexico, despite the difficult results they are encountering. He told them to keep trying to get food into the distressed sections and do the best they could.

PRESIDENT OF NEW BOARD IS NAMED TODAY

JOHN BEGG'S SELECTION TO POSITION SUITS GOV. WILLIS IT IS SAID.

Executive Declares He Has No Favorite for \$1,000 Per Year Secretaryship.

(ASSOCIATED PRESS TELEGRAM)

Columbus, July 23.—John Begg, Columbus Grove, was elected president of the new state board of agriculture at its first meeting here today. Election of a secretary was deferred until a session later today. At that time the four active candidates for the position of secretary were to be given an opportunity to appear in person before the board and present their qualifications. Renick W. Dunlap, of Kingston, former dairy and food commissioner, was said to be favored strongly. Others who were prepared to plead for themselves were Dr. H. M. Brown, of Hillsboro, W. W. Watson, of Youngstown, and Charles McIntyre of Columbus, chief agriculturalist for the board of administration.

Members of the board said they expected to postpone election of heads of sub-departments under the board until another meeting probably early next week.

Governor Willis called the members into his private office before their meeting today and told them he had no preference for the secretaryship. He turned over to the board correspondence relating to the position of secretary and other positions in the department, together

STRIKERS IN BAYONNE ARE QUIET TODAY

Authorities Would Not Allow Speeches at Funeral Of Riot Victim

FEARING THAT THEY MIGHT INCITE DISTURBANCES

USUAL CROWDS GATHER

About the Plants Early Today But Sheriff Keeps Down Disorder—Asks Men to Agree to Postponement for One Week of Pay Day Instead of Receiving Money Today.

(ASSOCIATED PRESS TELEGRAM)

New York, July 23.—Comparative quiet, in marked contrast to the three previous days of the week, prevailed in the Constable Hook section of Bayonne, N. J., today around the plants of the Standard Oil company and the Tidewater Oil company which have been closed because of a strike of 1,000 men in the oil works and the resultant disorder whereby three men were killed and scores injured.

Crowds gathered in the streets leading to the works to discuss the situation but no threatening move was made. Desultory firing occurred during the night, but the police said this was chiefly due to some false alarm among the watchful guards. Sheriff Kinkead and Commissioner of Public Safety Henry Wilson said today they believed the situation was well in hand and that there would be no need of troops.

Two events set for today caused the authorities some anxiety, however, and they kept a strong force of police and deputy sheriffs on duty. One of these was the funeral of the first victim of the riots, John Strachik, set for today. Some of the leaders wanted a public funeral with music and oratory, but the authorities forbade this. A church service conducted by the regular clergymen of the vicinity and a procession, it was declared, would not be interfered with, but speeches were banned.

The other matter to cause uneasiness is the fact that this is pay day at the works and it was thought some of the men might go there to collect wages and their approach might incite shooting and disorder. Sheriff Eugene Kinkead, in order to avoid possibility of trouble asked the strikers committee to defer their pay day for a week. The committeemen said they would present the sheriff's view to the men.

Sheriff Kinkead invited the strikers committee, which is headed by (Continued on Page 2, Col. 3.)

Impetuous French Charge Took Gallipoli Trenches; Desperate Bayonet Clash

(ASSOCIATED PRESS TELEGRAM)

Paris, July 23.—Exploits of the French expeditionary force on the Gallipoli peninsula June 21 and 30 in the region of Kereves Dere are recounted in an official statement issued tonight regarding the operations in the Dardanelles.

Four trenches, forming steps on a slope between the sea and a ravine opening from the village, were chosen as the objective for an attack on the 21st. A west wind covered the field of battle with clouds of dust swept up by the artillery preparations.

Suddenly, about 11 o'clock, metallic flashes streaked the shroud of yellow dust and the clash of bayonets was heard as the infantry leaped to the assault. One after another

the trenches fell before the impetuous charge of the French troops, which carried them all over to the heights of Kithia, beyond the farthest point at which the assault was aimed. An entire Turkish company, surprised in the first trench, surrendered without resistance.

"Counter attacks the following night," says the official report, "failed to budge the victorious forces. The French left completed on June 30, the advantage gained on the 21st by capturing a group of communicating trenches called 'The Quadrilateral,' at the head of the Kereves Dere ravine. Seven lines were taken by assault, certain colonial troops carried away by their enthusiasm, pursuing the enemy beyond the objective fixed. These colonial troops were almost surrounded but were able to regain the 'Quadrilateral.' We remained in undisputed possession of these trenches after the enemy had made one unsuccessful and disastrous counter attack. It was here that General Gouraud was wounded.

"On the night of July 4-5, the Turks, heavily reinforced, aided by aeroplanes, five cruisers of the Barbarossa type undertook a general attack. They seemed to have lost their spirit, however. Their hesitating advance was met by the allies with a murderous fire which was held until the last possible moment and which inflicted terrible losses without a foot of gain for the enemy. "Seventeen allied aviators attacked the enemy aerodrome at Chanak on the afternoon of the fourth. Explosive bombs were dropped on the principal hangar which was set on fire."

RESIGNATION OF SULLIVAN WAS FORCED

BRYAN'S APPOINTEE TO DOMINICAN REPUBLIC FOUND TO BE UNDESIRABLE.

Charges Made Which Reflected Upon Both Minister and Former Secretary of State.

(ASSOCIATED PRESS TELEGRAM)

Washington, July 23.—James M. Sullivan, American minister to the Dominican Republic, has tendered his resignation to President Wilson and it has been accepted. Mr. Sullivan's resignation is the consequence of an investigation, conducted for the state department by Senator Phelan of California, into the minister's fitness for his office. The findings were unfavorable to Mr. Sullivan.

Senator Phelan's report has been at the state department and before President Wilson several weeks. Soon after it was received, it became known that Mr. Sullivan had been asked to resign and had been given a short time to consider it. Today's announcement was the result.

Mr. Sullivan's brief term as minister in the Island Republic was attended by charges and counter charges as to his conduct. Walker W. Vick, collector of customs for the United States at the island, resigned because, it was stated, he had to work under unsatisfactory conditions brought by Minister Sullivan.

Senator Phelan, during his investigation, took testimony in the Dominican Republic, and in the United States, at which witnesses charged that Secretary Bryan, in appointing (Continued on Page 2, Col. 2.)

SOME HOPES GRANTED TO THE ALLIES

By Stubborn Resistance Of The Russians In Defending Important Railroad

MISTAKE PROBABLE IN REPORT OF IVANGOROD'S FALL

FATE OF WARSAW SEALED

In Opinion of Many Military Observers, But There Are Many Obstacles Yet to Be Overcome By Teutons—Situation In Dardanelles Demands Some Attention.

(ASSOCIATED PRESS TELEGRAM)

London, July 23.—Over the Russian front, from the Baltic as far as the Bug, the only district in which the Austrians and Germans are not attempting a serious offensive, lies opposite the region of East Prussia, which is well defended by the Mazurian lakes. North and south of Kovno, German attacks are reported, but the chief fighting is in progress south of Ivangorod, Lublin and Chelm, connected by the railroad line which is of such value to the Russians, and south of Sokal, on the Bug in Galicia, near the Russian border.

The report of the investment of Ivangorod in yesterday's communication from the German war office, puzzles military experts, who declare it impossible that the great fortress could have been surrounded completely. Southward from Warsaw to the west of the Vistula, the Germans report a victory for the Silesian landwehr, which stormed the Russian positions and threw back their defenders into the fortress of Ivangorod. As the scene of the Silesian success is 15 miles from the fortress, it is believed here the German official reports must have been translated erroneously as claiming the investment of the fortress itself, when the outlying protecting forts were meant.

From the standpoint of the allies, one of the most hopeful features of the campaign is the stubborn defense of the Lublin-Chelm railroad by the Russians.

On the Narew front to the north, there has been a lull in the fighting, but the renewed activity of the Germans from Kovno to the Baltic has developed into an important engagement as a result of which the Russians have been compelled to retire.

Interest here in the fate of Warsaw is undiminished but the stubborn resistance of the Russians is doing much to relieve the depression of the English. This feeling of relief enables the public to pay some attention to other battle fronts. The allies report minor successes in Mesopotamia and at the Dardanelles.

Along the Franco-Belgian and Italian fronts there is but little change, so far as the official reports show, although some fierce fighting has taken place at a few points.

The relations between Italy and Turkey indicate formal declaration of war may be expected soon.

APPOINTMENTS MADE TODAY BY THE PRESIDENT

(ASSOCIATED PRESS TELEGRAM)

Washington, July 23.—President Wilson today appointed Thomas S. Allen of Lincoln, Neb., to be United States attorney for Nebraska, and Thomas K. Flynn, of Omaha, to be United States marshal for the same district.

George L. Loomis, of Fremont, Neb., was appointed collector for international revenue for Nebraska, and Charles W. McCune, of Omaha, was appointed collector of customs for the same district.

Mr. Allen is a brother-in-law of former Secretary Bryan and Mr. Loomis is classed by the White House as a Bryan supporter. Mr. McCune and Mr. Thomas J. Flynn are understood to be supporters of Senator Hitchcock. The Bryan and Hitchcock forces heretofore have been unable to agree over appointments in Nebraska.

President Wilson today appointed the following Ohio Postmasters: James E. Gates, Ashland; Simon O. Weaver, Batavia; Albert Q. Arbaugh, Jewett.

NO CABINET MEETING.

(ASSOCIATED PRESS TELEGRAM)

Washington, July 23.—President Wilson cancelled today's cabinet meeting because there was no pressing business. He has seen most of the secretaries individually during the last two or three days.

F. T. MERCER IS APPOINTED POSTMASTER

(ASSOCIATED PRESS TELEGRAM)
Washington, July 23.—President Wilson today appointed Frank T. Mercer postmaster at Newark, Ohio.
Mr. Mercer was first informed of his appointment through the Associated Press bulletin to the Advocate. When seen later at the court house he said: "I will possibly receive official notification of the president's ac-

tion tomorrow and will have a bond forwarded me by the postoffice department. After it has been executed and accepted by the department, the next step will be the making out of my commission and after I receive that I will take charge of the office, however, before the first of the month.
The county commissioners were not at their office this afternoon but Clerk Mercer volunteered the information that they probably would not name his successor before the beginning of the new term, which is the third Monday in September. There are said to be quite a few applicants who are willing to succeed Mr. Mercer as clerk to the board of county commissioners.

K. OF C. PICNIC WILL BE HELD AT LAKE AUG. 12

The K. of C. of Central Ohio, will hold their annual picnic at Buckeye Lake Park on Thursday, Aug. 12. Representatives from the different cities met with Manager Will D. Harris and Excursion Agent W. C. Wells yesterday afternoon and signed up for the big picnic.
Col. Wells stated that the picnic will bring several thousand people to the park and that Manager Harris is arranging for their comfort. Chapters from Zanesville, Lancaster, New Lexington, Coshocton, Columbus, Mt. Vernon, Mansfield, Newcomerstown, Dennison, Steubenville and a number of other cities will be represented.

STRIKERS

(Continued from Page 1.)

Jeremiah J. Daly, to police headquarters and besides discussing the pay proposition, asked them to strongly counsel the men to avoid further disorder. He appealed to them for the sake of homes and families to keep the men off the streets. He said he believed the strike could be settled without further bloodshed and he asked for their hearty co-operation, which was promised.

There was comparative calm around the plants of the Standard Oil and Tidewater Oil companies early today and the deputy sheriffs, sworn in by Sheriff Kinkead to preserve order, had little to do. Through the night an occasional shot was heard, but so far as the police could ascertain, no one was injured though there were reports that two men had been shot. This is pay day at the oil works, but whether the strikers would report for a committee of workers to the sale of fire arms and explosives has been forbidden in Bayonne, New Jersey.

New Jersey John A. Moffitt and James A. Smyth, who were detailed to try to end the strike by Secretary of Labor William Wilson, arrived in Bayonne today and immediately set to work. Mr. Moffitt conferred with the strikers' committee and Mr. Smyth went to the Standard Oil works to consult with the officials in charge. The funeral of the riot victim, John Strachuk, it was announced later, has been postponed until tomorrow or Sunday. It was thought best to defer burial of victims until the feeling among the strike district had subsided further.

Fourteen of the injured in Bayonne hospital, it was said today, were suffering from severe wounds. Of these, it was thought by the doctors, John Surgen and Michael Seizecz would soon be added to the list of dead.
The authorities of New Jersey tried today to keep order at the Standard Oil plant in Bayonne, without calling out the militia. At the same time it was stated that if the strike situation became worse, the militia would be called into service at an hour's notice.
Adjutant General Wilbur F. Sadler, who witnessed the scenes of the rioting yesterday when two strikers were shot and killed and several others wounded, afterward told the sheriff, Eugene P. Kinkead, that if the rioting was resumed today, state troops would be needed. General Sadler was expected to make a further investigation and report to Governor Fielder. "If the situation becomes as grave

today as it was yesterday, I will, with the governor's approval, call out the militia," said the adjutant general.
Governor Fielder, who left his home in Sea Girt, to be near the scene of the trouble, was in New York today waiting word from General Sadler and the sheriff which would determine whether troops to Bayonne yesterday had 250 deputies guarding the oil plant all night and searching lights mounted on the roofs of the buildings swept the walls of the plant and streets nearby. There was no disorder during the night, but the sheriff was convinced that he could not, with the force at his disposal, control the situation today.

EXTRA POLICE

Will be Called From Cities Located Near Bayonne.

(ASSOCIATED PRESS TELEGRAM)
Trenton, N. J., July 23.—Governor Fielder came to the state house today and in an interview said he is convinced there is now no need for convicts troops at Bayonne. Adjutant General Sadler, of the New Jersey national guard, and Sheriff Kinkead today told the governor that the situation was within control of the local authorities. Sheriff Kinkead will swear in additional deputies today and also call upon the different cities of Hudson county, in which Bayonne is located, to lend their extra policemen to Bayonne to maintain order.

If the agitators will keep quiet, the governor said, he felt satisfied the demands of the strikers would be presented to the employers with some hope of an agreement.
Governor Fielder was caustic in his criticism of the Bayonne city authorities for the way in which the strike has been handled.

EIGHT HOUR DAY

Over New England May Result From Bridgeport Strike.

(ASSOCIATED PRESS TELEGRAM)
Bridgeport, Conn., July 23.—With the arrival here today of Samuel Gompers, president of the American Federation of Labor, and a number of executives of international unions, J. J. Johnson, vice president of the Structural Iron Workers, announced that he had been informed the written agreement by which an amicable settlement of all labor troubles in Bridgeport, will be secured, had been signed. The text of the agreement, he said, added, would probably be given out for publication this afternoon.

Mr. Johnson also stated it had been determined that the next move in the campaign to secure an eight hour day throughout New England would be made at the Winchester Repeating Arms company at New Haven, which engaged in the manufacture of munitions of war for Great Britain and her allies. The Winchester company is building a big addition to its plant.

MINERS QUIT

Until Companies Carry Out Recent Agreement Ending Strike.

(ASSOCIATED PRESS TELEGRAM)
Wheeling, W. Va., July 23.—Three mines in the East Ohio Coal field were closed today because approximately 1,000 men notified the operating companies they would not work until all provisions of the agreement by which the recent strike was settled, have been carried out. Some of the mines have not reopened, and reports reaching here today were to the effect that scores of families were destitute. During the strike benefits totalling \$1,654,000 were distributed among the strikers and their families, but with the signing of the agreement the benefits ceased.

JACKETMAKERS

To the Number of 10,000 Strike Today in New York.

(ASSOCIATED PRESS TELEGRAM)
New York, July 23.—Ten thousand members of the Children's Jacket Makers' Union struck today, according to an announcement by Sidney Hillman, president of the Amalgamated Workers of America, with which the union is affiliated.
Three or four hundred shops on the East Side, controlled by independent manufacturers, are affected.

CITY PRIMARIES TO BE AUGUST 10

Tuesday, Aug. 10 will be primary day at which time a Democratic and Republican municipal ticket will be nominated.

There will be one registration day previous to the primaries, the deputy supervisors of elections naming Thursday, Aug. 5. The registration booths will be kept open from 8 until 2 o'clock and from 4 until 9. At that time voters who have moved from one precinct into another, and those who will have become of age before Tuesday, Nov. 2, may register.

Thrilling Rescue From Drowning By Hundred Workmen

(ASSOCIATED PRESS TELEGRAM)
Escanaba, Mich., July 23.—The body of Mrs. Neva Lipman of Powhatan, W. Va., who was drowned below Chandler's Falls here yesterday, was recovered today. Mrs. D. G. Moon, sister of the victim, was rescued only when nearly one hundred workmen employed on the big dam under construction joined hands and formed a chain into the swift river. The women were wading when caught in the current.

note and expects to forward it to President Wilson at Cornish for his final approval before dispatching it to London. The note has been delayed partly because of the President's desire to dispose of the last German note before taking up the issue with Great Britain, and partly because of developments in the British situation which have come up from time to time.

BERNSTORFF

Goes to State Department to Get His Official Copy.

Washington, D. C., July 23.—Count Bernstorff, the German ambassador, went to the state department today for his official copy of the new American note to Germany, although he previously had received an outline of its contents.
The ambassador has had no communication with his foreign office on his view of the note which was delivered there today by American Ambassador Gerard, but his purely personal view is that the communication will bring a reply although one may not be made for more than a month. His personal view is that the situation still is left open for amicable adjustment.

ORDUNA CASE

Will Be Made the Subject of a Diplomatic Inquiry.

(ASSOCIATED PRESS TELEGRAM)
Washington, July 23.—The United States will make diplomatic inquiries of Germany regarding the submarine attack on the Canadian liner Orduna at a time when she was bringing a score of Americans home.

A report of an investigation conducted by Customs Collector Dudley Field Malone at New York, presented today to the state department, embracing affidavits of officers, crew and passengers on the liner, contains the sworn statement of at least one American passenger that the ship was attacked without warning.

All officials refused to discuss the report or its contents but it is known that the state department officials did not feel they could address inquiries to Germany on statements made by British passengers alone. Now, in possession of statements by Americans, the United States probably will ask the Berlin foreign office for its version of the pend on the reply.

GERMANS SEIZE AMERICAN BARK

Berlin, Via London, July 23.—The American bark Dunseyre, New York for Stockholm, has been seized by the Germans and taken into Swinemund.

The only Dunseyre mentioned in available shipping records is a three-masted clipper owned by the Victoria Shipping company limited of Victoria, B. C. This vessel sailed from San Francisco April 17, for Balboa, where she arrived May 5, and sailed for Helsingborg Sweden, arriving July 11.

NEW PRESIDENT OF WOOSTER HAS ACCEPTED HONOR

New York, July 23.—J. Campbell White, M. A., L. D., has accepted the presidency of the College of Wooster, Ohio, and will enter upon that duty September 1.
He was born in Wooster, 45 years ago and is a graduate of the college of the class of 1890. Dr. White has been general secretary of the Laymen's Missionary movement of the United States and Canada since its organization in 1906. For ten years he was general secretary of the Y. M. C. A. of Calcutta, India and for three years secretary of the Ways and Means committee of the United Presbyterian church.

Dr. White does not sever his connection with the laymen's missionary movement, but has been elected a member and vice chairman of the executive committee and will be closely associated with the movement.

POOL SELLER IS FINED IN COURT AT CINCINNATI

Cincinnati, July 23.—Edward Hardy, arrested here in connection with the country-wide campaign against baseball lotteries, was found guilty in municipal court late yesterday. On his plea that he was yesterday an agent for men higher up and had accepted the position as agent, the minimum sentence of 10 days and \$50 fine was imposed, the 10 days then being remitted and the fine cut to \$25, which Hardy has arranged to pay.

BALL GAME WILL FEATURE PICNIC OF BUILDERS

A feature of the picnic to be held at Buckeye Lake by the Columbus Builders and Traders' exchange, on Saturday, July 31, will be the ball game between the Bildez team of the Saturday Afternoon League and a picked team to be called "The Old Timers." The committee on arrangements has arranged for the usual kinds of athletic events and amusements.

RESIGNATION

(Continued from Page 1.)
Sullivan had been consulted by financiers associated with Samuel M. Jarvis, of New York, who controlled the Banco Nacional Bank at Santo Domingo City, which was seeking deposits of customs duties collected by the United States. Other witnesses gave testimony to show that the manager was interested in securing contracts there for other Americans. Former Governor Port, of New Jersey, and other witnesses testified that Sullivan was "big hearted, good natured and honest."
The report, which Secretary Lansing announced today would not be made public until next week, is understood to sustain many of the charges against Sullivan.

EVANS-SAWYER GOLF MATCH IS BIG CARD TODAY

(Associated Press Telegram)
Cleveland, July 23.—Ned Sawyer, Chicago, led "Chick" Evans, Chicago, three up at the turn in the morning round, at the country club golf links here today.

Cleveland, July 23.—"Chick" Evans and Ned Sawyer, Chicagoans, had easy victories over their opponents in yesterday's matches in the Western amateur golf championship over the Mayfield course. Sawyer defeated Jack Neville, Oakland, Cal., 10 and 9, and Evans extended a similar defeat to Guy A. Miller of Detroit. H. P. Bingham of Cleveland eliminated Dewitt Balch, Cincinnati, 4 and 3, and Jimmy Standish defeated E. H. Bankard of Chicago at 6 and 4. Not a match went to the thirty-sixth hole.

Golf enthusiasts are looking forward to the Evans-Sawyer clash today as the real title affair of the tournament, for it is thought the victor will have little trouble in defeating either Jimmy Standish or H. P. Bingham, the other two who meet in the semi-final matches. Sawyer played in remarkable form all day. He finished the morning round 10 up on Neville and in doing so recorded a medal score that ties the new record set by W. C. Fownes, Jr., Pittsburgh, in Tuesday's qualifying round. His card out was 34, three under par, and he came in with 38, a total of 72, one under par.

The result of this match was a real surprise, for Neville was expected to give the Chicagoan a battle. He was very much off his stride, while Sawyer was at his best, missing few opportunities.

Champion Evans played consistent golf all day, his medal score of the morning being one stroke higher than Sawyer's. He outclassed his opponent, G. A. Miller, Detroit, at all times, Miller won only two holes in the morning round. The match between Dewitt Balch of Cincinnati and H. P. Bingham of Cleveland was an in-out battle for the greater part of the day. Bingham continued the great form that gave him victory over W. C. Fownes, Jr., Thursday. He is the real surprise of the tournament, not even being mentioned in the rating book of the Western Golf Association, and defeating a man yesterday who dined Joe K. Bole.

Jimmy Standish, though putting badly yesterday, was superior to E. H. Bankard because of the latter's frequent slices and hooks. Bankard was going into the rough or into the traps at almost every hole.

Today Sawyer and Evans will meet, while Standish and Bingham will be the other starters. With weather conditions favorable and the course in excellent condition, two great contests are looked for.

NEWARK WINS GOLF MATCH AT CAMBRIDGE, O.

The golf team of the Country Club won the Thursday afternoon match at Cambridge in an easy manner, the total score being 29 to 10. This victory is particularly pleasing to the Newark players as Cambridge has twice won the league honors for the season.

Newark has now won two and lost two with two more matches to play. Zanesville at Newark August 5 and Coshocton at Coshocton, August 19. To win the league pennant Newark must take these two remaining matches. With as much improvement as has been shown in the past month the team stands a fair chance of winning the pennant.

Next week on Thursday afternoon there will be a mixed foursomes tournament, each gentleman to secure a lady partner. Entry should be made with Chas. Hollander. Suitable handicaps will be arranged by the committee.

Yesterday's score:

Cambridge	Newark
R. M. Wilson, 2 1/2	Hollander, 1 1/2
G. W. Smith, 0	Franklin, 2 1/2
H. L. Stewart, 1	Hundley, 2 1/2
S. A. Craig, Jr., 2	Manning, 1 1/2
E. Hawthorne, 0	Scott, 2 1/2
A. W. Boyd, 0	Besuden, 3
Brooks Sutton, 1 1/2	Graesser, 1 1/2
S. C. Carnes, 0	Kidrick, 1 1/2

FIVE EVENTS IN LIMA RACES; ONE WAS POSTPONED

Lima, July 23.—The second day of the Lima Driving Park meet continued until sundown and even then it was necessary to continue one of the five events over until Friday to finish. The real feature of the afternoon was the 2:10 pace, in which the time of 2:08 1/2 made by Grand Opera lowered the track record. Van Burn, a Newark horse driven by Vanatta, was fourth. There were nine starters in this event. Allen B. battled through a victory in the 2:22 pace in close finishes, while Ima Jay had little trouble in winning the Maple Lane Farm stake in straight heats.

New Wonder of the West

Daniel Tipple

Here is the Indianapolis American Association pitcher for whom Colonel Jacob Ruppert and Captain T. L. Huston, new owners of the Yankees of New York, were reported to have paid \$10,000. They do not themselves say they paid that sum, but they did give enough to make it very interesting for the management of the Indianapolis club.

Tipple is twenty-four years of age and six feet tall, weighing 170 pounds. He was born in Rockford, Ill. His first experience as a pitcher was with the Omaha club of the Western League. Indianapolis got him, and this year so far he has won eleven games and lost two which is a very fine record for a young pitcher. However, though the Yankees are in need of pitchers, he won't be delivered to the club until the American Association season closes. The New York club will be able to try him out for a few days before the close of the big league season.

GROCCERS FALL BEFORE Y. M. C. A. AT WHITE FIELD

The Y. M. C. A. and Grocers' baseball teams had another set-to yesterday afternoon at White Athletic Field. The "Y" team won 8 to 6. The first four innings were hotly contested, but in the fifth inning the "Y" boys batted the ball hard and scored six runs. Mossman held the Grocers safe except in the eighth and ninth innings when they scored four runs.

Line-up:
Y. W. C. A.—Fatig, r. f.; Neighbarger, c.; Jones, s. s.; Crawford, 1st; Hazlett, 2nd; Colwell, l. f.; Armentrout, c. f.; Nehls, 3rd; Mossman, p.

CHARGES AGAINST UMPIRE QUIGLEY BY BOSTON CLUB

(Associated Press Telegram)
Boston, July 23.—President John K. Tener of the National league is expected here this afternoon to make a personal investigation of the trouble yesterday between Umpire Quigley and Captain John Evers of the Boston team. Word of his intention to come to Boston was received at the office of the Boston club from New York.

Quigley struck Evers on the chest because, he says, Evers stepped on his foot during an argument. Charges against Quigley were filed with President Tener by James Gaffney, owner of the Braves, and Quigley also reported the incident.

HOME-RUN BAKER IN SEMI-PRO RANKS GETS \$50 PER DAY

Asheville, N. C., July 23.—J. 2:03 PACE IS FEATURE TODAY AT NO. RANDALL

Cleveland, July 23.—Get-away day at North Randall track brought with it a program including some of the fastest performers of the light harness world and promised to constitute a fitting climax to the opening week of the Grand Circuit season.

The card embraced the 2:03 pace and the 2:05 trot, in addition to the 2:13 and 2:21 trotting classes. In addition to these four regular events the Fasig three year old sweepstakes, which were carried over from Thursday because of a heavy track, due to rain, was to be decided.

Napoleon Direct was the early favorite in the 2:03 pace. He is a Geers entry. Rhythmell was touted as the speed of the 2:05 trotters.

Thursday was "Pop" Geers' day at the North Randall track, the veteran piloting his trotters to victories in both the Tavern Steak and the 2:17 trot. Both were the sort of races that have made the name of Geers famous wherever the light harness game is followed.

In the Tavern Steak Geers had the mount behind The Guide, his own trotter. It was Geers' first appearance in the Cleveland classic and he celebrated, taking the second and third heats. Ben White drove Lettie Lee the first heat in 2:06 3/4, a record for the race. Fourteen horses were entered in this event, but five were dropped after the first time around.

In the 2:17 trot Pop gave the talent a rap by winning with St. Frisco. Stratford the favorite, after winning the second heat, went lame in the third and couldn't come back. The Proof, a rank outsider, took the third heat by a nose, but was easily beaten by Geers in the final.

Ben Whitehead entered the 2:20 pace, the day's first event, with Pat Carmody, who proved to be a real pacer. There was nothing to the battle by Pat, the talent received a stiff jolt and had played Grace Ogale and Hal Plex E.

Tommy Murphy found the going easy in the 2:17 trot, driving Mirthful to a straight heavy victory. The mare outclassed her field and won as she would.

REPRIMANDS FOR DRIVERS AT THE MATINEE RACES

A large crowd estimated at 2,000 half of which were women, witnessed some excellent sport. The track was fast but the time was slow, but there was plenty of excitement just the same.

"Pop Geers" Jones was called to the stand and reprimanded for a bad drive and his horse was set back to last place in the second heat. Driver Smith behind Dona also won the displeasure of the judges and was called on the carpet and Dona set back.

Driver Wright, behind Admiral Dewey, thought he could use the whole track after entering the stretch and he cut off Dandy Jim, and the judges gave him last place for his drive. Rector, up behind Culan Bird, tried the same trick and the judges gave him the same dose as that given Driver Wright.

New horses are being entered at every matinee, Prince Hank and Jimmy O'Connor being the latest to try out and both did very well.

A check strap broke on Quincy Gray in the first heat of the A pace, the horse losing his feet and a bad spill was the consequence, horse and driver going down in a bunch, but fortunately no one was hurt. The prizes were distributed after the last race.

The association wishes to thank the judges, Messrs. Baird, Groves and Hankinson, for their good work. Their conduct in the judges stand assures good clean sport.

Another matinee will be given next Thursday afternoon and it is hoped to see another large crowd at the track.

The following is the summary:

YANKEES MAY HAVE PARK IN CENTER OF CITY

(Associated Press Telegram)
New York, July 23.—Local baseball enthusiasts were interested in a well-defined report today that the New York American league club has secured an option upon property close to the center of the city, for a new baseball park. The plot designated is between Fortieth and Forty-Second street, First avenue and the East River.

The property, which has an area of more than 200,000 square feet, is within a few minutes walking distance of Broadway and Forty-Second street and if the deal for the transfer of title is completed, a concrete stadium, capable of seating more than 50,000 spectators, will be erected in time for the opening of the 1916 season. Leading officials of the club were with the team in Chicago today and the local office staff refused to affirm or deny the report.

NOTHING TO REPORT SAYS PRES. RUPPERT

War's High Cost.

Premier Asquith in speaking before the British House of Commons one day this week is quoted as saying that during the first seventeen days of this month the cost of war to Great Britain alone averaged \$15,882,941 a day.

This enormous sum does not take into consideration the indirect cost to English commerce but is the direct cost of maintaining the army and navy. And they say that England hasn't started yet!

Great Britain negotiated a three billion dollar loan last week but Mr. Asquith wants an additional loan of 750 millions of dollars to tide the country over until September when Parliament will meet.

The cost of war seems to be growing and it will increase as the number of men in the field is enlarged and greater expenditure is made for equipment and munitions. A short time ago the daily average direct cost to all nations involved was fifty million dollars a day, but the indications are that the sum is larger today.

In commenting upon the Asquith request for more British gold the Pittsburgh Gazette Times observes:

In times of war the question of economy never receives any consideration, but it would be interesting to learn just how much the increased cost of war is due to obsolete plans and specifications carried from one generation to another in the various bureaus of supplies maintained by governments. American manufacturers who have been asked to furnish supplies for the allies have been amazed when they came to examine specifications, and sometimes have been amused at the stern refusal of official inspectors to permit of any deviation therefrom. As concrete examples they cite the specifications recently submitted for saddles and bridles for cavalry horses and traces for artillery teams. One would suppose that the harness was intended for the grand entrance of a circus parade rather than for the rough and tumble of war. A Pittsburgh manufacturer recently declined to bid on a contract for furnishing stoves intended for use in the trenches because the specification called for an article that might grace a gentleman's library. The cost of new machinery and skilled labor required in its manufacture would involve too great risk, even if the buyer were willing to pay the price.

Science and discovery have been requisitioned as never before to contribute to the horror and destructiveness of war, and when it comes to the accoutrements of the common soldier they have been made as plain and grim as possible; but in some respects there is a clinging to useless trappings and an insistence upon obsolete forms that must add enormously to the cost of killing.

This policy is not exclusive to nations engaged in the hurry and rush of actual conflict, but pervades war departments in times of peace. It is asserted that the United States government today—or until very recently—specifies a quality of cotton duck for army tents that has not been manufactured for years, simply because the officials or clerks entrusted with the work of furnishing specifications copy the old forms that were adopted some time after the Civil War and have never been revised to conform to modern industrial methods. The crookedness of army contractors as a factor in adding to the cost of war has become a proverb.

Spirit of the Press

End of the War.

The war is not to end in October. The date has been deferred. The Berlin Tagblatt announces that the Kaiser never made any announcement of the close of hostilities. It is a pity to have our hopes of an early peace dashed thus. The Russians are drawing their armies back and sending their supplies forward in the hope of getting the two together. France and England are making contracts for munitions that will take a year or more to fill and there is a gloomy prospect that the war will last through another winter.—Philadelphia Record.

Torpedo That Hunts Its Quarry.

A weapon of the greatest value in coast defense is a torpedo that can be started and stopped, steered so that it will follow its quarry, and exploded at the right instant, all at the will of an operator working at the shore station. This torpedo alternately flashes a light and throws a jet of water above the surface so that its course and position can be seen day or night. If the ship at which it is aimed gets out of range, the torpedo can be turned around and steered back to shore, a feature of importance in view of the fact that a modern high-power torpedo costs upward of \$8,000. Current for driving the propeller and controlling the movements of the torpedo is supplied through a wire that is wound around a shaft in the torpedo and has its free end connected with a generator at the shore station, the wire unwinding from the shaft as the torpedo moves forward.—Popular Mechanics Magazine.

Sign of Intelligence.

The English are beginning to wake up to the unhealthy effect of strict censorship on news from the front. When the Englishman, or the German too, for that matter, admits he's wrong in any particular, there is hope for him.—Buffalo Commercial.

Drain Imposed by War.

If all the farmers of the United States were to take the surplus of their yearly production—grain, cotton, flour, meat, hides and skins, wool, sugar, meats, and so on—represented in the annual exports of the country, and make a bonfire of it, the world would stand appalled at such an exhibition. The aggregate value of such exports annually is \$5,000,000,000, a sum that corresponds to the amount of a war loan authorized recently by a single belligerent European nation. It is one of the many remarkable things connected with war that the drain it imposes upon industry is concealed largely from those who sooner or later must make good the waste.—Christian Science Monitor.

Neighbors.
 "Mr. Abraham Hahn, living near Taneytown, Maryland, had been sick for a long time and his farm work had not been done. On April 28, 14 three-horse teams started into a 30-acre field owned by him, and at 5 p. m. it was ready for the harrow. His neighbors had turned out and done his work. The percentage of warm hearts and happy breasts in that neighborhood is estimated to have been larger that night than ever in the history of the community."—Farm and Fireside.

Contributions of Science.

During the present war the contributions have been enormous from science, and it is somewhat depressing to reflect that the ingenuity of man has addressed itself to the invention and manufacture of means to destroy life and property. The chemists are divided, however, and a part of them devote their time to furnishing new forms of food to sustain humanity during this awful crisis. The Germans take the lead in this, as in most other sciences, and are finding means of providing the leaders of their people with wholesome foodstuffs that were never dreamed of until necessity, like a thrifty mother, taught them new methods.—Memphis News Scimitar.

Mrs. Edison's Chance.

Mrs. Edison says she is quite sure her husband will join the new Development Board of the Navy, but wishes she could keep him at home instead. If she only had her husband's ingenuity and invented something that will keep husbands at home, what a favorite she would become with American wives.—Brooklyn Times.

Raising Children.

Every child must have child-companions; every child has the inborn right to develop physically and mentally in child fashion. The activity which its muscles crave must be inhibited neither by nursery strings that cut the tender flesh, nor by imperious discipline that is doubly cruel from being unintelligible to the little one. An idle man is a bad man; an idle child is a mischievous child. One could not devise a surer means to ruin a child than to condemn it to the exclusive company of its elders, and forcing it to "behave" surrounded by objects that will not fit into its baby hands.—St. Louis Dispatch.

Fancy Garbage in Germany.

"A new regulation in Berlin, Germany, requires that vegetable tops, peelings, and waste bread be kept separate from all other garbage so it can be collected and used as cattle fodder.—Farm and Fireside.

Possibly a Blessing.

Some of the warring nations are said to be melting their monuments and statues to provide metal for war munitions, and if they are as objectionable as some of those we have in this country, the war will prove a blessing in disguise.—Springfield News.

Some Compensation.

The verdict in the Thaw case has a certain compensation. Hereafter, the Thaw money will be distributed around instead of going to the legal profession in a lump sum.—Topeka Capital.

Has 'em Guessing.

The allies think Rumania will not join the Teutons and the Teutons think Rumania will not join the allies. All of which justifies us in the belief that Rumania has the whole bunch guessing.—South Bend Tribune.

A Little Fun

Different Now.

"'Tis better to have loved and lost than never to have loved at all," quoted the Wise Guy. "Oh, that was written before the days of alimony and breach of promise suits," added the Simplex Muz.—Philadelphia Record.

Embarrassing.

CORRESPONDENCE.

The months pass by; the waters, white with foam, moan ceaseless dirges o'er the shifting graves of

babes and women, who, afar from home, lie in the seaweed and the ocean caves. Perhaps their shades, from some far shipping sphere, are looking down and waiting for the hour when this, their country, will arise and say, "I guard my people, with my might and power. Wherever they go, the people of this land, my flag's their safeguard and their diadem; I will protect them with a stalwart hand, and vengeance wreak on all who'd injure them." We're working hard, we do the best we can! You can't expect a nation strong and great to hurry things, like any business man! Were writing letters, almost every day, rebuking kings for turpitude and guile, and our effusions, all the critics say, are quite distinct for literary style. No Grub Street, taint our polished diction knows, our protests all are worded well, we feel; they will compete with Walter Pater's prose, and please the ghosts of Addison and Steele. Be patient, souls, there in your distant berth, the skin is snarled, but we'll remove each kink; we'll wind red tape eight times around the earth, and dye the seas with dark official ink.

Paw Knows Everything.
 Willie—Paw, what is diplomacy?
 Paw—Diplomacy is using soft soap on a man when you want to clean him up, my son.

You Know Him.
 I part from him with no regret,
 He's selfish, I am told;
 He's wrapped up in himself and yet
 He's always mighty cold.

Mean Brute!
 "It says here that a New York woman wants a divorce because her husband makes her get up at 3 o'clock in the morning," remarked Mrs. Gabb. "I wonder what her husband's idea is?"
 "I suppose he wants to give her time to comb her hair before breakfast," replied Mr. Gabb.

Giddap!
 His actions often make me sigh,
 From booze he won't be warned;
 He takes no other drink but rye,
 Yet he is always corned.

The Wise Fool.
 "It takes three generations to make a gentleman," observed the sage.
 "Yes," agreed the fool. "But it only takes a girl three minutes to unmake him, sometimes."

No Joke.
 Expensive days these late days are,
 You can't make money last;
 A dollar won't go half as far,
 But it goes twice as fast.

To have a sheriff and sexton in one and the same person is a convenience that can be appreciated by those who are familiar with the pastime of shuffling in the mountainous counties of Kentucky. It's mighty "handy like,"—Prairie County (Ky.) Advocate.

 Dear Luke—Cheer up! It's the mutts who haven't got brains enough to know that brain work is real work who kick in with the hardest knocks if you are out of the paper for one day. If any one of these knockers was paid \$1.50 per word to try and fill your daily space they would not be able to earn enough to buy ink enough to write one line.—An Admirer, Piqua, O.

Luke McLuke Says:
 Fate always hands a meek man a bossy wife, because one rabbit in a family is enough.

When she is seventeen she believes in long engagements and thinks it very poor taste for a girl to marry on short notice. But when she is twenty-seven she will marry a man on a one hour notice because she realizes that she is getting older every minute.

The man who has a small salary and a big family has as much trouble making both ends meet as a puppy does when he is chasing his own tail.

Even a doctor who needs the money will admit that the best prescription he can write is, "Take less medicine and more exercise."

Husbands will never admit it. But the reason why a woman has to have a fresh box of talcum powder every now and then is because their hubbies use up half of it shaving.

We all know that the sign, "This means you," always means the other fellow.

The biggest diamond in the world is always the one a princess has in her engagement ring.

A man often gets the worst of it when he takes a better half.

What has become of the old fashioned woman who used to say that fingers were made before forks and who said that any man who soiled two knives when he was eating a meal was a dude?

You never see a crowd of men following a plain duty or a plain girl.

Johnston, Lancaster; Judge and Mrs. Donahue and daughter of Columbus; Mr. and Mrs. Phil Cullinan of New Lexington.

Miss Mary Carl was the hostess at a pretty garden party on Thursday evening at her home in West Church street, which was given to honor a number of out of town guests of Miss Carl. The yard was lighted with Japanese lanterns and dancing was enjoyed on an improvised floor on the lawn and punch was served during the evening.

The guests were: Miss Lucille Bunge, Mr. of Mechanicsburg, Miss Elisabeth Jennings of Columbus, Miss Louise Elder of Mt. Sterling, Miss Margaret Baum of Kansas City, Misses Ruth Lindorf, Elinor Spencer, Katherine Sachs, Edwin Stahl, Louise Smith Messrs. Edwin Stahl, Theodore Neel Charles Starrett, Bryce Prior, Frank Spencer, Hessel Stephen, Dale Warner, Frederick Hall, Jerome Norpell, Stewart Sedgwick of Cincinnati, and Ned Putnam of Cranville.

Dane Smith and Miss Hazel Christman of Brandon were married in Covington, Ky., June 17th, and they kept the matter secret until last Sunday when they announced it.—Utica Herald.

The Eliza Scott Sunday school class of the First M. E. church held a most enjoyable picnic at Kill Kare Kamp on Thursday. Members and their families numbering eighty-three sat down to a luscious spread at six o'clock. The privileges of the camp were most royally extended to the class by the kindness of Miss Childs, secretary of the Y. W. C. A., which was appreciated by all present. It is to be hoped the picnic will become a feature of the class.

Mrs. G. W. Sapp delightfully entertained a small party of friends at her home in Union street at a six o'clock dinner last evening, honoring Miss Eleana Young of Mt. Vernon, Ohio.

YOUNG WOMAN IS STRUCK ON HEAD BY AN UNKNOWN

A young woman giving her name as Miss Boyer of Jefferson street, suffered a badly cut forehead Thursday night about 9 o'clock in West Main street, when a man who approached her suddenly struck her over the eye with his fist. A doctor who was passing at the time, took her to his office where the wound was dressed. The identity of Miss Boyer's assailant is not known. The young woman was walking with a friend at the time.

Aged Woman Stricken.
Mrs. Lucy Corne, 90 years old, mother of Dr. W. G. Corne, well known dentist, suffered a stroke of paralysis last night at the home of a daughter in Circleville, with whom Mrs. Corne was visiting. Dr. Corne was notified this morning that her condition was regarded as very serious. Mrs. Corne makes her home in Newark with Dr. Corne.

Elevator Passengers.
Mr. Harold Van Arsdale made a report of the passengers carried in the elevator in the Trust building from noon to 4:20 when he was relieved. The total number of passengers was 663. The operator says that this is about the average number carried during that time. Not so easy after all.

PANAMA CANAL NOW PAYS EXPENSES AND IS SHOWING PROFIT.

(Associated Press Telegram)
Washington, July 23.—Counting only the cost of operation of civil government, sanitary work and administration and the handling of ships, the Panama canal is now on a paying basis, according to official reports.

Receipts for May not only wiped out the deficit of \$39,480 which had grown up since the opening up of the canal trade, but left a balance of \$177,799 which works out a profit of 4.79 per cent. on the expenditures.

This, however, does not make any allowance for interest on the vast sum of money expended in the construction of the canal and from that point of view the receipts from tolls have not yet equaled the expenses.

TESTIMONY THAT CLAIRVOYANT PAID BRIBES TO POLICE

(Associated Press Telegram)
Chicago, July 23.—James Ryan, formerly a member of Chicago's ring of clairvoyants and now a convict, resuming the stand today in the trials of former Detective Sergeants, William Egan and Walter O'Brien, charged with accepting bribes from criminals, testified that he had paid C. P. Bertsche, confessed "fixer" \$400 a month for police protection.

The witness said he understood the protection money went to Captain John J. Halpin, former chief of detectives, Lieutenant John Tobin and former Detective Sergeants O'Brien and Egan.

The witness said that on another occasion O'Brien said he had a town in Canada "fixed" for him to work in and wanted him to go there, but Ryan refused.

On cross-examination Ryan said he attributed his success as a clairvoyant to his knowledge of human nature. He admitted that he made love to a few women patrons to get their money.

"You promised to marry Mrs. Hope L. McDowd of Lacrosse, Wis., one of your victims, did you not?" asked Attorney Charles E. Erbe.

"Yes," replied the witness.

"And you were married at the time?"

"Yes."

THE SICK

Mrs. Walter Warfield of Perryton, was brought to the City Hospital Thursday afternoon in the Bazler ambulance. Drs. Harbottle and Essington performed an operation late Thursday.

Mr. Samuel White, who has been ill for the past several days with malaria, is convalescing at his home in Tenth street.

The five-months-old son of Mr. and Mrs. Leo McDonald, who has been seriously ill at the home of his grandparents, Mr. and Mrs. W. E. Richard, 521 Maple avenue, is improving under the care of Mrs. Dr. Florence Smith.

REGISTERED NURSE.
Word has been received that Mrs. Nina Thorne Petery of this city has passed the Michigan State Medical Board for Nurses and is now a Registered Nurse.

For several years Mrs. Petery did private nursing here and later entered Hurley Hospital Training school for nurses at Flint, Michigan, where she graduated June 1, 1915.

On July 1, she accepted the responsible position of surgical supervisor of the Children's Hospital in Detroit, Mich.

Her many friends wish her success.

HANDKERCHIEF MAY GIVE CLEW TO SAFELOWERS

(Associated Press Telegram)
Bellefontaine, Ohio, July 23.—A handkerchief bearing the initials "T. T." and a Lima laundry mark, is said to have given Wood county officers a clew to the persons who "blew" the postoffice safe at White-town, near Bowling Green, last week and escaped with \$1100 in stamps. Tim Turner and Ray Miller, both of Lima, were arrested at Lakeview, Logan county today, and charged with the robbery.

Readers' View Point

Write Name On Ballot.
Editor of The Advocate: Will you please announce how a candidate for city council whose name has not been presented as yet may be voted for at the primary election on August 10th? Friends of Henry McGlade, foreman at the Helsey Glass factory, want to have Mr. McGlade nominated for First Ward councilman. No other Democratic candidate from this ward has been announced. How can Mr. McGlade's name be put on the primary election ballot?

EAST ENDER.
It is too late for names to be certified to the board of elections and no names not already before the board can be printed upon the primary election ballot. However, those First ward voters who desire to have Mr. McGlade placed in nomination may write his name upon the ballot in the blank space printed for that purpose.

Mrs. F. G. Warden of Chicago, is in Newark on an extended visit.

Mr. Seanlin of the Green-Joyce Co. is in Newark today on business.

Mr. Earl J. Le Febvre of Chicago, is spending a few days in Newark as the guest of Edwin J. Stedem of Hudson avenue.

Mr. H. W. MacKenzie, returned today from Columbus.

Miss Mary Hagan returned from her vacation yesterday. Miss Hagan spent her vacation in Cincinnati.

Mrs. Charles Freas was operated upon at the City Hospital recently by Drs. Postle and Harbottle. Mrs. Freas is doing very nicely.

Miss Lucile McEwen and Miss Bernice Wintermute are spending today in Columbus.

POLICE MAY NOT ACCEPT REWARD FOR AN ARREST

(Associated Press Telegram)
Columbus, Ohio, July 23.—Sheriff Charles Cooper, of Hamilton county, cannot receive part of the \$500 reward offered for the arrest of Sam Scheff, now serving a life prison sentence for the murder of Patrolman Ballard here last fall, the common pleas court held today. Cooper arrested Scheff and secured a confession from him on which his prosecution was based, but the court held it is against public policy for police officers to participate in rewards.

ETNA FARMER IS NEW APPOINTEE; NAMES SIMILAR

Licking county's representative of the state board of agriculture is D. D. Snider, a farmer, living in Etna township, between the villages of Etna and Wagram, not D. D. Snider of Gratiot.

The similarity of names caused the governor and his clerks some embarrassment Thursday. The announcement was made at the governor's office Thursday morning and through some clerical error, Mr. Snider of Gratiot got into the list of appointees.

For a few hours the governor's office was kept busy straightening out the tangle. This morning came the announcement from Columbus that the man for whom the appointment was intended was Mr. Snider of Etna.

The appointment of Mr. Snider of Etna, was secured through the efforts of his grange friends, with whom he is very popular. He has been a hard and conscientious worker for the betterment of farm conditions through organized efforts of granges, and has been president of Pomona grange, Licking county, for four years.

He is a Democrat in politics, and has been trustee of Etna township.

COMMANDER OF SWISS ARMY IS HOPING FOR BEST

(Associated Press Telegram)
Berlin, July 23.—(By wireless to Sayville).—A dispatch from Berne, Switzerland, given out by the Overseas News Agency here today, says that General Ulrich Wille, commander of the Swiss army, addressing a meeting held to celebrate the anniversary of the battle of Sempach, said that while Switzerland hoped that the worst would be spared her, the future was still uncertain. It will be unmerited luck, General Wille declared, according to the dispatch, if Switzerland should escape in the midst of the heavy storms raging around her.

JOHN J. CARROLL

H. C. PRICE

WILL BE TENDERED PRESIDENT OF THE MARYLAND AGRICULTURAL COLLEGE.

Position Most Desirable One and It is Up to Former Dean to Accept or Reject.

Professor Homer C. Price who was dean of the Ohio College of Agriculture, until recently removed from the position, by friction with the trustees, will be offered the position of president of the Maryland Agricultural college, by the trustees of that institution. Whether or not he will accept is a matter for him to decide.

Professor Price told the Advocate yesterday that he had the offer tentatively, and had been asked to consider it, should it be tendered. That the position will be given him if he wishes to accept it is made certain by the following from Baltimore:

Baltimore, Md., July 23.—When the board of directors of the Maryland Agricultural College meets next Thursday they will receive from a special committee, a recommendation that Professor H. C. Price be elected president of the institution. Professor Price, until recently was dean of the Agricultural College at Ohio State University.

The special committee, of which Governor Goldsborough is an ex-officio member, was appointed to look for a president to succeed Acting President H. J. Patterson, who resigned when the board instituted a commission form of government. The experiment did not prove to be a success and Dr. Patterson resumed his duties as executive, though he was not formally re-elected. He has been merely acting president. The office of president is, therefore, officially vacant.

The special committee set on foot in Maryland and in the other states, inquiries for an experienced man, trained in practical agriculture and possessing executive ability, who could build up the college. The committee in New York conferred with educators familiar with men well qualified to discharge the duties of executive.

Among these most highly recommended was Professor Price. All inquiries concerning him convinced the committee he was the man for the place.

The recommendation of the special committee next Thursday will not necessarily carry with it an election. The board of trustees is controlled by Democrats while Governor Goldsborough and a majority of the committee are Republicans. Hence the possibility of a political clash. Dr. Patterson is a candidate for re-election and as he was originally elected by Democratic votes these same votes may rally to him again. He was elected over the protest of Governor Goldsborough and his friends on the board, who have worked earnestly to eliminate politics from the institution and to place it upon a more efficient basis.

The position of president of the agricultural college is a desirable one. The institution is near Washington and is within reach of that city by frequent railroad and trolley trains. The federal government under the Morrill and Blair acts, awards the college over \$100,000 annually as an experiment station. It receives a large annual appropriation from the Maryland legislature. The president of the college is head of the experiment station.

Heroes In the Trenches

Paris, July 23.—These men in the trenches must keep incessant vigilance against sudden attacks by the enemy. The men who serve the artillery fire day and night oftentimes at an enemy that is never seen.

Medical science will save more lives this year than war will take, no matter how terribly murderous that war may be. Then, too, the food supply is very carefully looked after by the commissariat. The food supply of the soldiers must be wholesome. Living in the open air, the men are able to digest hard-tack with great relish. Napoleon said, "An army fights on its stomach." A man with a weak stomach is pretty sure to be a poor fighter. It is difficult—almost impossible—for anyone, man or woman, if digestion is poor, to succeed in business or socially—or to enjoy life. In tablet or liquid form Dr. Pierce's Golden Medical Discovery helps weak stomachs to strong, healthy action—helps them to digest the food that makes the good, rich, red blood which nourishes the entire body.

This vegetable remedy, to a great extent, puts the liver into activity—oil the machinery of the human system so that those who spend their working hours at the desk, behind the counter or in the home are rejuvenated into vigorous health.

It has brought relief to many thousands every year for nearly fifty years. It can relieve you and doubtless restore your former health and strength. At least you owe it to yourself to give it a trial. Sold by medicine dealers or send 50 cents for box of tablets—Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

You can have Dr. Pierce's Common Sense Medical Adviser of 1108 pages in cloth binding, fully illustrated with colored plates, for 3 dimes or 20 cents.

SWIMMER RISKS

LIFE TO WIN WAGER; HE WINS THE MONEY

Rex Elben did a swimming stunt during the flood in the creek the other day, says the Utica Herald, which brought him ten dollars from a wager. His proposition was that he could swim over the old milldam and come out safely below. The terms being agreed, Rex plunged into the stream some distance above the dam, swam to the center of the current and went successfully over the dam, where he disappeared for a couple of rods distance beneath the foam and turbulent water. To get to the shore was more difficult than the going in, and he did not escape from the current and get to land until he had reached the steel bridge on the Newark road.

NO CHANGE ON BATTLE FRONT IN GALLIOLI

(ASSOCIATED PRESS TELEGRAM)
Constantinople, July 22.—(Via London, July 23.)—There has been no change in the situation on the Gallipoli front in the past week. Both the allies and the Turks have confined their efforts to desultory small arms fire and sapping operations. The weather has been excessively warm.

The Turks are concentrating many new troops near the Gallipoli theatre. After surmounting many new difficulties, they now have placed in successful operation several plants for the manufacture of ammunition for heavy artillery. The output of these factories, it is asserted, is several thousand shells a day.

There is but a slight foundation for reports of famine and epidemics of diseases in Constantinople. The city is well provided with moderately cheap food; there have been no disturbances in the streets and no cases of cholera have been reported.

BRITISH VESSEL FOUNDERED ON A HAWAIIAN REEF

(ASSOCIATED PRESS TELEGRAM)
Honolulu, T. H., July 23.—The British cable schooner Strathcona, enroute from Auckland, New Zealand, to the Fanning Islands and Honolulu is a total loss in the South Pacific, near the Fiji Islands, according to information brought here today by the Union Line Niagara. Officers of the Niagara said that a wireless message had been received at Suva on July 14 from the cable layer Iris that she was searching for the survivors.

One boat load of the Strathcona's crew was picked up by the Iris, but a second boat, which was thought to be making its way to Tongatabu or one of the outlying Fijis, was still unaccounted for. It was believed at Suva that the Strathcona piled up on Minerva Reef, and foundered.

BOLDEST
PIECE OF OUTLAWRY IN IDAHO
WILL HAVE FINAL CHAPTER
SATURDAY
When \$6,000 for Man's Ransom Will
be Deposited for Bandit in
Lonely Place.

(ASSOCIATED PRESS TELEGRAM)
Idaho Falls, Idaho, July 23.—The last chapter in the boldest piece of outlawry enacted in this state for a long time probably will be written at midnight Saturday in the lonely fastnesses of Long Canyon, on the Idaho-Wyoming border. At that hour \$6,000 in gold coin will be deposited on a designated rock for the release of Ernest A. Empey, a rancher, who was waylaid last Saturday night by a bandit, kidnapped and held for ransom.
E. S. Empey, father of the kidnapped man, completed arrangements today for the payment of the money. The bandit notified the elder Empey by note that unless the money was forthcoming, his son would be killed. A lone driver will take the coin to the appointed place in an open wagon.

ADVANCE MAN OF CHAUTAUQUA HAS COME TO NEWARK

"Chautauqua" is to be the chief theme in Newark for the next two weeks. D. L. Cornet, nine-day man for the Redpath company, has arrived and from now until the opening day he will be busy placing advertising matter and otherwise assisting the Federation of Women's Clubs under whose auspices the ticket campaign is being conducted.
Artistic souvenir programs, automobile pennants, darters and banners, window cards, pennant streamers, Chautauqua hats and other supplies will be distributed by Mr. Cornet, and nothing will be left undone in the campaign for a record-breaking week of worth while entertainment.
Systematically and extensively the Chautauqua dates and attractions are being announced in surrounding territory and it is expected that many visitors will be in the city during the week. It will be a home-coming event for many former residents and local people will avail themselves of the opportunity to provide high class entertainment for themselves and guests.
It is probable that an auto parade will be held within the next few days, at which time it is expected that nearly 100 cars will be suitably decorated and in line for a booster trip. Other novel events are being planned by local people who have made possible the Chautauqua.
The seven-day program begins July 30 and some of the chief attractions are the Ben Greet Players, Ferullo's Band, Dr. Frank W. Ganss, Mar. C. Kellerman, dramatic baritone, Packard the cartoonist, Dr. Herbert L. Willett, Reno the magician, Attorney-General Barker of Missouri, Edwin M. Whitney, reader, the American Male Quartet, George L. McNutt, the "Dinner-Pail Man," the Military Girls, Harry F. Atwood, former field secretary of the Chamber of Commerce of the United States, Kentucky Entertainers, The Elwyn Musical company, the Chicago Ladies Singing Party, Strickland Gillman, America's foremost press and platform humorist, and Chaplain Kiplinger of Indiana state prison.
The advance man has selected the Y. M. C. A. as headquarters and anyone desiring information should call there.

SUCCESSFUL PICNIC GIVEN BY MACHINISTS

The machinists picnic held at Back-cyc Lake Park yesterday was a great success and thoroughly enjoyed by the large crowd in attendance. It is estimated that at least 1,200 were in attendance. An excellent program was carried out which consisted of a ball game in the morning, boys, girls, men and women's races and novelty races free for all. From 11:30 to 12:30 a picnic dinner was enjoyed under the trees and in the various shady nooks with which the park abounds. The first contest after dinner was a row boat race for machinists and this was followed by a nail driving contest for the ladies. Then came a number of races, high and standing jumps, ball throwing contest for ladies, tug of war and at 5 o'clock the prize wait. In every contest prizes were awarded and the events furnished a great deal of amusement to the large crowds which witnessed them. The picnic was a success in every particular and the machinists are to be congratulated for the manner in which it was conducted.

Germs irritate and enlarge the blood vessels, which creates piles.
A new treatment for piles is a recent discovery of a New York Specialist. This scientific remedy contains a powerful non-poisonous germicide and antiseptic which removes the cause that creates piles without inconvenience to the user of these suppositories.
By the use of Ridapile Cones relief is quickly obtained; pain banished; itching immediately ceases; bleeding is stopped; protruding piles and hemorrhoids reduced after a few applications of the Cones when used according to directions, restoring these parts to their healthy condition.
Ridapile Cones remove the cause by killing the germs. The Cones exert a healing and soothing action and a trial brings immediate relief.
Ridapile Cones do not contain OPIUM, MORPHINE, COCAINE, or other NARCOTICS.

Mrs. Jones?

The Remark after Tasting

Was one of satisfaction as to the tastiness of the Ham. The fact that these Capital Brand Hams are cured differently than most other brands of hams, gives them a sweet, appetizing taste not found in other hams.

You will find Capital Brand Hams are leaner, tenderer and better than any other you can buy. They are high Quality.

"PROVE THE QUALITY BY TASTING"

Just to satisfy your curiosity and to substantiate our remarks ask your dealer for Capital Brand Ham and note the goodness.

If your dealer hasn't got Capital Brand, ask him to get it.

ILLEGITIMATE BUSINESS OF LOAN SHARKS

WILL BE RUINED IF PUBLIC CO-OPERATES WITH BANKING DEPARTMENT.

In Enforcing New Law Designed to Prevent Poor Being Charged Usurious Interest Rates.

(ASSOCIATED PRESS TELEGRAM) Cedar Point, Ohio, July 23.—Plans for enabling men with small incomes to borrow money at a low interest rate, were formulated today at a meeting of remedial loan company representatives in the state, with Harry T. Hall, state banking superintendent, who will have charge of enforcing the Lloyd so-called "loan shark" law when that goes into effect Aug. 10.

The remedial loan men here, representing all large cities and many smaller county seat cities in the state, discussed plans for assisting the banking department to detect violations of the law by reporting suspected cases to it. The Lloyd law will limit interest rates to 3 percent, a month and additional charges to \$1 for loans of less than \$50, besides making chattel and salary loan companies subject to license and inspection by a special bureau of the banking department.

"This law has teeth in it," said Superintendent Hall, "and I shall see that its provisions are enforced. The department will not assume the attitude of seeking technical violations, but willful violators will be prosecuted, and where the occasion warrants, jail sentences will be insisted upon. The man who tells us certainly entitled to just as fair and honest treatment as the business man or the captain of industry when he borrows money. We propose to see that he gets a square deal under this law. What is needed to drive the modern Shylocks who live off the misery of the poor, out of business, is the aid and co-operation of the general public and especially those who have been the victims in the past."

Hugh Huntington, Columbus attorney, considered author of the Lloyd bill, assisted Superintendent Hall in organizing an association of the remedial loan men. "In the past this has been a loan shark question," he said. "In the future it will be a banking question. The old days of 1000 percent interest, rough collection methods, blackmail, extortion and oppression are gone. "The rate of interest under the new law is fair enough to allow all legitimate loan companies to live. It is liberal enough to attract honest capital."

For Removing Hair Under Arms

Saturate the hair thoroughly with El-Rado, the sanitary, colorless liquid, wait a few moments, then wash off with some plain water. The hair will be all gone—not to return for a long time. And when it finally does reappear, it will be even finer and softer than originally, so that with another application, it's gone for a still longer period. El-Rado retards hair growth, while all other methods, such as shaving, singeing, etc., promote its growth and make it come back coarse and brittle like a man's beard.

For years thousands of women have used El-Rado for the removal of all hair from the face and neck. The new style gowns and sheer blouses require the removal of hair from under the arms, the users are increasing daily as new users before.

El-Rado requires no rubbing or scraping; it leaves the skin as soft and white as your face. So highly and so gentle are its ingredients that many physicians use them instead of shaving their patients before operations. The better stores and toilet counters sell and recommend El-Rado. Two sizes, 50c and \$1.00. Money back without question if you're not more than pleased. Get a bottle today so you can apply it this evening.

For free booklet, full information and letters of prominent users, send us a postal; or we will gladly fill your order direct if you enclose stamps or coin. Pilgrim Mfg. Co., 66 East 25th St., New York City. [F31]

In this city El-Rado is sold and recommended by: W. A. Erman, Frank D. Hall, J. W. Smith.

IMMEDIATE

RELIEF NEEDED BY FAMILIES OF DESTITUTE MINERS IN EASTERN OHIO.

Food, Clothing, Household Supplies May be Sent Direct to Adjutant General Hough.

Columbus, July 23.—Adjutant General Hough today made preparations for receiving contributions of food, clothing, household supplies or money for destitute coal miners of southern and eastern Ohio from citizens of the state. Governor Willis said he hoped the response to his appeal for help in behalf of poverty and hunger-stricken miners, issued in the form of a proclamation yesterday, would be liberal.

Room was cleared in the basement of the state house where food and supplies can be received, sorted, repacked and shipped to districts where miners' families are in immediate need of help. Money contributions will be used mainly in buying food, it was said.

Supplies for babies in families where miners have had little work for many months, are needed sorely, according to reports reaching the governor today.

Commercial organizations, lodges, churches and civic or philanthropic associations of all kinds were asked by Governor Willis to solicit contributions and to forward them to Adjutant General Hough at Columbus speedily. Since no funds are available to pay transportation charges on these shipments, it is asked that these charges be prepaid.

RUSSIA FACES SHORTAGE OF AMMUNITION

BUT MORALE OF THE ARMIES IS NOT SHATTERED BY REVERSES.

Tribute From German Source As to the Bravery and Endurance of Czar's Armies.

(ASSOCIATED PRESS TELEGRAM) Berlin, via London, July 23.—A dispatch from Vienna to the National Zeitung says the final attempt of the Russians to stop the advance of their opponents in the critical battle on the new line southward of the Lublin-Chelm railroad, southeast of Warsaw, has ended in failure. The decisive action in this campaign is likely to come in the territory between the Vistula and the Bug rivers.

The Russian southwestern front is seriously menaced, the dispatch adds. The railroad line running through Ivangorod, Dublin and Chelm is now only a few miles northward of the Teutonic lines, and the capture of Lublin and Chelm is said to be a question of only a brief time.

The correspondent of the National Zeitung at Tarnow, Galicia, while reporting that the Austro-German forces are advancing steadily, points out that there are difficulties to be met. He says the Russians have to contend with a lack of ammunition, but the statement that their morale is shattered, is untrue. On the contrary, they are displaying the greatest bravery and endurance and only in the case of contingents without higher officers do they surrender readily.

At Krasnostav, 34 miles south of Lublin, there occurred an engagement at close quarters which was unusually desperate and deadly. The Russians awaited their attacking opponents and resisted them with the bayonet. They had assembled strong reserves and the Germans and Austrians had to expend the greatest efforts to overcome them. It was necessary to throw the Russians over the trenches.

The lack of good roads in Poland presents an especially unfavorable aspect from the standpoint of the invaders. Deep sand makes the movements even of infantry slow, while from ten to twelve teams of horses must be utilized to draw heavy guns.

Bitter rear guard conflicts mark the slow retirement of the Russians in South Poland. They give way only one step at a time, thus delaying, although not preventing the Austro-German advance.

The correspondent says that the achievements of the Russians in view of their lack of ammunition, are remarkable.

Auto Was Submerged.

Last Thursday evening John Poul-
ton, of Poulton & Co., the drilling
contractors, driving a six-cylinder
car from Cleveland, reached the over-
flowed road two or three miles north
of Utica, when he got off the road-
bed where it was covered by a foot
of water. After working till 2 a. m.
without avail, the job was abandoned
for the night and the car was anchored
to a tree with a stout cable. It
was rescued the following day.—
Utica Herald.

Gas Main Broken.
During the flood the other day a
three-inch gas line of the Utica com-
pany running from the Gourley well
north of town, was broken—not in
the creek, but in the field where it
was covered with back water. The
break was quickly repaired.—Utica
Herald.

Delicious Apricots.

Dry's Will Meet.
There will be a meeting at Sum-
merland Beach, Buckeye Lake, late
in August or early in September of
all "dry" county chairmen, field
workers and other temperance lead-
ers in the state for the purpose of
discussion of the prohibition cam-
paign. The meeting was decided
upon Tuesday by the dry federated
campaign committee.

Masonic Picnic.
All members of the general com-
mittee on the Picnic are requested to
be present at the Temple at 7 p. m.
sharp. Please be prompt so the
business to be transacted can be
completed before the meeting of
Newark Lodge.

Seven Are Arrested.
Seven youths of East Newark, who
have been making things unpleasant
for residents in the vicinity of Balti-
more street, were taken into custody
Thursday evening about 8 o'clock by
Officers Harter and Sunkle. They
will be arraigned late Friday on
charges of disorderly conduct.

with pleasure.

Drunks Are Fined.
Five drunks were arrested yester-
day and drew fines of \$5 and costs
in police court Friday morning.

Kresge Clerks' Outing.
Twenty-two employees of the Kres-
ge company, enjoyed a delightful
outing at Horn's Hill on Thursday
afternoon. The trip was made in a
large truck and an appetizing picnic
supper was served.

At Atlantic City.
Henry Sachs, of the firm of Sachs
Brothers in the Memorial building,
left today for Atlantic City where he
will spend two weeks as the guest of
relatives. He expects to put in the
most of his time in the surf and in
crab fishing and has promised to ship
several bushels of the latter home to
his brother Michael for distribution
among his friends.

Will Meet at Lake.
The men of the Hollings company,
about 100 in number, will hold a two
days' session at Buckeye Lake next
Friday and Saturday. Company af-
fairs will be discussed and it is ex-
pected that the meeting will prove
very beneficial.

Making Improvements.
Joe Green, the West Main street
dyer and cleaner, is making a num-
ber of improvements to his plant
which includes a cement driveway to
the cleaning room, a porch addition
and an outside sleeping room on the
second floor. Mr. Green will leave
for Cedar Point next week to attend
a national convention of dyers and
cleaners which will be in session
there the entire week, concluding
with a banquet at the Breakers and
a boat ride to Put-In-Bay, where an
inspection of the new Perry Mem-
orial will be made.

Expert Advice For the
Automobile OwnerQueries and Replies Covering Matters of
Importance to the Man Who Runs a Car

I have trouble with pounding in the
second cylinder of my car. Several
times I have tightened the connecting
rod and bearings so tightly that it is easily
felt while cranking the machine. When
I have run 400 or 500 miles the knock
reappears. The machine has run 3,700
miles in all. Can you tell the trouble?

The most probable cause of the
knock you mention is a loose bearing.
This may be a main, connecting rod,
wristpin or camshaft bearing. It
might also be caused by a broken piston
ring, the camshaft being out of
alignment, or if the knock is not very
severe it may be the result of carbon
on a valve seat. As it is most probable
that it is in the crankshaft bearings,
these should be inspected and if nec-
essary carefully taken up, or if they
are badly scored they may need to be
scraped, or in an extreme case they
will require replacing. In taking up
the bearings great care should be ex-
ercised not to get them too tight, and
it should be noted that it is quite pos-
sible that the reason your machine be-
gins to knock again after going 400 or
500 miles after the bearings have been
adjusted too tightly. When a bearing
is too tight excessive friction is the re-
sult, and overheating occurs. This
years the bearing away in a very short
time and in some cases may even melt
the metal. The bearing should be only
taken up enough to remove all play.

It would hardly seem possible that
the bearings should need scraping
after the car has gone such a short dis-
tance, but if they have been adjusted
too tightly it may be that they are bad-
ly scored, and if this is the case scrap-
ing will be necessary. This operation
should be left to the care of an ex-
perienced and skillful mechanic and is
not a job for the novice.

Kindly tell me the best way to true
up the wheels on a car. I feel that my
wheels are not running true.

Before anything is done be certain
that the wheels need truing up. Some-
times all that is necessary is to re-
adjust the tie rod, which connects
both wheel knuckles. Wabbling front
wheels may be caused by a bent axle,
bent spindle, partially broken bearing,
interior of hub worn, etc. The com-
mon cause is bent spindles, and a good
repair man can bend these back in
shape.

Why is it hard for me to start my car
when I run out of gasoline and refill
the tank again?

Possibly the carburetor float sticks
against the side of the chamber, so
that it is difficult for the gasoline to
flow in. Another explanation is that
there is dirt in the fuel pipe and that
therefore the passage of fuel is very
slow, with the result that it takes
some time for the chamber to become
filled, and if an attempt is made to
start before this time difficulty may
be experienced.

Can you tell me how to mend a crack
in the crank case? It is so bad that
the oil leaks out in a short time.

You cannot mend this yourself un-
less it is very small, in which case
you might be able to patch it with a
piece of sheet steel metal and some
rivets. If the crack is of any size it
is best to have it welded, although if
the place is so situated that it is not
strained by the operation of the motor
it may be sufficient to solder it.

What effect does the practice of us-
ing the motor as a brake coming down
a hill have on the mechanism of an au-
tomobile?

The use of a motor as a brake is
generally conceded to have a more or
less deleterious effect on the gears.
The power through the gears is re-
versed, since the car is now tending
to drive the motor. Thus instead of
having the stepdown reduction we
have a step-up with consequently
more surface pressure on the teeth
and hence more abrasion.

Where is the best place to look for a
knock?

All moving joints are susceptible to
knocks. Tracing through the trans-
mission of power from the cylinder to
the rear axle, we find that at each
point of engagement of one or more
moving parts with other parts there is
a chance for a knock. Starting with
the piston, if this is too loose, there
will be a distinct slapping sound. It
can only be cured by the use of an
oversized piston. The next point is at
the wrist pin, which might have a
knock due to looseness in the upper
connecting rod. The fourth point is in
the main bearings in the crankshaft,
fifth at the connection between the
crankshaft and clutch, then in the uni-
versal joints and the gear box bear-
ings and between the teeth of the dif-
ferent gears. Loose valve tappets,
timing gears, etc., are also fruitful
sources of knocks.

Will it shorten the life of a piston by
drilling to lighten it, or is there any
disadvantage in so doing?

You can drill the pistons and get
good results. Many racing cars use
such pistons. It will be better and
cheaper in the end to get pistons of
some light material, such as mag-
nallum.

In using denatured alcohol as a car-
bon remover, how much should be used
in each cylinder, and should it be al-
lowed to stand over twelve hours or so
before using again?

The piston of the cylinder should be
on top, dead center, and both valves
closed. The cylinder should then be
filled to capacity with the alcohol. This
should remain in the cylinder at least
six hours and preferably twelve hours.
The cylinders should be hot when the
alcohol is poured into them.

What advantage is gained by placing
a plate on the pistons to obtain higher
compression? Will it cause an exces-
sive vibration in a motor running 2,000
revolutions per minute?

Many owners have fastened plates
to the piston tops in order to increase
the compression and gain power and
speed, but the construction is not ad-
vised, as the results obtained are not
worth the expenditure in time and
money. All depends upon the weight
of the plates as to whether the vibra-
tion will be high.

How long will a magneto run with-
out remagnetizing it and overhauling
it in general?

Magnetos will run for five years and
upward without remagnetizing if a
good job has been done in the first
place and if the magnets employed have
the proper degree of retentivity. The
exact time cannot be stated, but the
service which you can secure from a
magneto before it needs recharging will
extend over an indefinite period of
years.

There is a knock in the cylinder of
my car which I can stop only by re-
tarding the spark lever as far as it will
go and keeping it so, no matter at what
speed the car is going. What is the
matter?

You have not said whether you are
obliged to retard the spark so far that
the power is reduced. It may be that
the spark linkage is connected up so
that the spark ordinarily occurs too
early and that the lever must be re-
tarded all the way before the spark
occurs in the proper place. If this is
the case change the setting of the
spark linkage so that when the motor
is cranked slowly the spark occurs at
dead center with the lever retarded.

Vary the adjustment of your carbu-
retor with the lever halfway advanced,
and then note whether the knocking
continues. Crank the motor slowly,
and note which cylinders offer small
resistance to the pull of the crank. If
all are strong then there are no leaky
valves, pistons or rings, but if one or
more are weak you should take your
car to a repair shop and have the trou-
ble fixed.

Remove the radiator cap while the
motor is running, and note whether
the circulation of water seems free;
also feel the various parts of the sys-
tem and see whether there are any
wide variations in temperature or
whether the temperature is fairly uni-
form all over the radiator and piping.
Big differences in temperature would
indicate lack of circulation, caused by
sediment in the water jackets, loose
pieces of hose in the passageways or
dirt in the radiator. A thorough flush-
ing of the system should be sufficient
to put it in good order, and if it is not
the car should be entrusted to a repair
man. A heavy coating of carbon on
the cylinders will cause a knock, and
the remedy is to remove the carbon.
Defective ignition, if it causes a knock,
should also cause a miss. Poor insula-
tion, loose connections, poor adjust-
ment of the vibrators, incorrect spark
gap, dirty plugs and cracked porcelain
are the principal ways in which the
ignition may give trouble.

What are the advantages of a float-
ing rear axle?

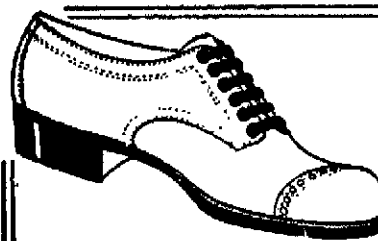

In the floating rear axle the shafts
are relieved of all stresses but tor-
sional ones, which is quite an advan-
tage. The shafts may be removed
without disturbing the wheels, and
with a sufficiently large plate in the
differential housing the differential it-
self may be removed for inspection.
In this type of axle the shafts carry
no weight and hence do nothing else
but turn the rear wheels.

What is the average life of a spark
plug?

The average life of a spark plug is
two seasons. Some makes of plugs
which are more costly and which have
a better composition of nonburning ma-
terial in their electrodes will last much
longer than the cheaper plug. The
average of two seasons may be taken
as the life of most plugs.

What treatment is necessary to make
a brake lining stick better?

No treatment should be given a brake
lining to make it stick better except keep-
ing it clean and maintaining the prop-
er adjustment on the brakes. When
worn down the brake lining should be
replaced. One of the frequent occur-
rences is the wearing of the asbestos
compound below the surface of the
copper rivets which hold it in place.
This brings the copper rivets in con-
tact with the metal brake band, great-
ly reducing the retarding effort of the
brake.

Granville

(Special to Advocate.)

Granville, July 24.—The illustrated lecture on "Travel in Norway" given in Recital Hall last night, was thoroughly enjoyed by the large audience present. Dean C. E. Goodell was in his most genial mood, his introductory talk was full of spice. Instead of Prof. Lott—which was a mistake of the correspondent—Dean Goodell introduced as the lecturer of the evening, Miss Henderon, a member of the Summer school faculty, who at once proceeded to give one of the most entertaining and instructive travel lectures heard here in years. Miss Henderon has an attractive personality, a pleasingly modulated voice, a fluent diction and a demure sense of humor which did considerable "execution" last evening. The pictures were clear, the subjects most interesting, and the speaker wasted no time "between scenes." The slides followed each other in quick succession, and one had quite a definite feeling on leaving the hall, that he "really had been some place."

Mrs. Kate Amos Barker of Cambridge is in Granville for a few days, a guest of her brother and sister, Mr. and Mrs. Edgar Amos, who are occupying the Dr. McKibben home in West Elm street.

Mrs. L. E. Davis is at home again, after a visit with her brother, Dr. E. Q. Green and family in Toledo. The Spencer Bible class will hold its annual picnic Monday evening, July 26, on Sugar Loaf. All members are urged to come with well filled baskets, for the supper at 6 o'clock. The regular monthly business will be disposed of before supper.

Word was received yesterday by Mrs. L. W. Perry of the death of her sister-in-law, Mrs. C. W. McCammon at Junction City, Kansas, Thursday morning. Mrs. Perry will attend the funeral which will be held on Saturday at Valley Falls, the old home of Mrs. McCammon, who before her marriage was Miss Lillie Goodrich, daughter of Mr. George Goodrich, a former Granville resident.

The W. C. T. U. meets this afternoon at the home of Mrs. Christine Cook in College street. Miss Anna Lyon has charge of the program, and a picnic supper is served on the lawn.

Miss Blanche Horton, one of the most popular young women in Gran-

ville, was in Zanesville yesterday attending a meeting of the chief telephone operators of this district.

Mrs. Minnie Lyon of Columbus is visiting her sister-in-law, Miss Anna Lyon in East Elm street.

Mr. Burton Case informs us that he is going to have a great peach crop this season and that they will be ready for the market about the middle of August. On account of the heavy "June drop" the peaches will be larger and of a better flavor. His orchards are among the best in the state, and for several years, during the height of the season, hundreds of people have come from miles around in wagons and automobiles to purchase the delicious fruit fresh from the trees.

PRESIDENT PLANS ANOTHER TRIP TO CORNISH, N. H., SOON

(Associated Press Telegram)

Washington, July 23.—President Wilson plans to leave Washington for another visit to the summer White House at Cornish, N. H., within the next 24 hours. The length of his stay is uncertain and will depend largely upon developments in the German situation.

During his absence, the President will consider his next step in his Mexican policy and the new note to Great Britain protesting further against interferences to neutral commerce.

Secretary Lansing will go to Man-

chester, Mass., tonight to visit Colonel E. M. House, President Wilson's close personal friend. He will be only a few hours ride from Cornish, but he said today he did not expect to visit the President.

MULLER DECLINES TO BE DRY MANAGER IN MUSKINGUM COUNTY.

Zanesville, July 23.—The Times Recorder says today that W. M. Miller of Dresden, has declined to manage the dry campaign in Muskingum county this fall. It is said that Mr. Miller has been offered the position of dry manager for the 15th congressional district. He managed the Licking county campaign a few years ago when he lived in Granville.

It is estimated that the government's Grand Canyon game refuge in Arizona now contains about 10,000 deer.

LAST STAND

Will be Made by Villa Governor at Nogales.

(Associated Press Telegram)
Douglas, Ariz., July 23.—Jose Maytorena, Villa governor of Sonora, is today hurriedly massing his available forces in the state for a last stand at Nogales, against the Carranza troops who are making every effort to dominate Sonora. Advice received here state that estimates based on careful observation place the largest number of Villa troops in the town at 1500, but it expected that this force will be reinforced by 1000 troops from Guaymas.

The main army of General Calles, at last accounts, was reported near Santa Cruz, where the advance guard is stationed.
